TO OUR CUSTOMERS – WE STILL PRODUCE AND DELIVER AS USUALLY.

Triplan consider it our obligation to contribute to limiting the Corona virus from being spread and at the same time to keep the business of our customers in operation.

At the factory in Ishøj near Copenhagen we still produce and deliver materials and we have plenty of raw materials.

Many of our employees are able to work from home and we have introduced a number of measures to limit the virus from being spread. This means that we are able to maintain Triplan's usual high service level.

We are aware of how much it means to our customers to receive materials as agreed and in time! Please do not hesitate to contact Triplan. We are at your service should you have any questions or should you wish to place an order.

Kind regards
Triplan International A/S

Klaus Groth Larsen
CEO
